

"Thank you and thanks to the whole Twig team for an amazing effort. 'Top Gold' has such a great ring about it.

From a discussion in the Kent 2020 exhibition on the 2nd of April to a winning garden on the 17th of July is one heck of an achievement. Thanks for your willingness to go with my crazy ideas and turn them into a built reality. Also thanks for your willingness to work with other professional disciplines, particularly our colleagues in Learning through Landscapes and our PR team at Pillory Barn Creative. It is so refreshing to work with a specialist and knowledgeable company like Twig with a willingness to understand the importance of the broader education objectives.

As well as achieving those Education objectives, demonstrating the potential of outside spaces for learning, you also achieved an excellence in plantsmanship, landscaping and horticulture, recognized by the Judges in awarding our garden the Top Gold prize. In addition, your team on the day was brilliant in making sure the garden stayed looking its best and left nothing to chance. The team was also very good at helping with the visitors to the garden especially the children and those looking for gardening advice.

Genuine thanks. I've booked my B&B for next year!"
